PIXEL PORTRAIT™

The newest innovation from CLAXTECH®

INSTRUCTIONS:

1. Obtain a canister of glue, a pair of scissors, and colored pencils or colored markers.
2. Cut out squares indicated by the dotted lines
3. Color squares desired colors.
4. Apply colored squares to FaceGrid™ in order to indicate the creation of a face (see FaceGrid™ Examples).
5. Share with your friends.

FAQ

Question *Can't I just color in the squares on the FaceGrid™?*

Answer No.

Question *What effect is achieved by cutting out the squares and then placing them on the FaceGrid™?*

Answer It makes the composition in **3-D**, which is much more than your markers can do alone.

Question *Can I make other people's faces on the FaceGrid™, and not just mine?*

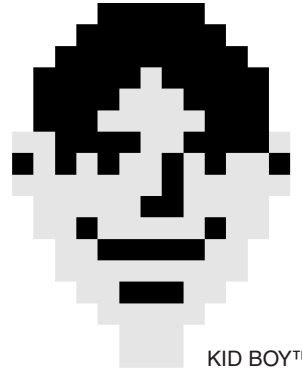

Answer CLAXTECH® neither endorses nor denounces any or all possibly inflammatory work, for binding legal reasons. For a closer look as to why, please visit claxtech.org/legal.
